- 06 KBK CSR Future Plan

Introduction

PT Kaltara Batu Konstruksi strives to become and maintain its position as Indonesia's leading aggregate mining company, contributing to the economic development and improving the quality of society.

Our mission will have great effects if we implement responsible environmental, social, and governance practices. This forms the basis for an integrated ESG commitment to the way we operate and a guide to a sustainable future, for a better Indonesia.

Environmental

As a leading company in the mining aggregate sector in Indonesia, we have a responsibility to develop our business in an innovative way and toward a sustainable future. We understand the importance of implementing clean technology in our mining production, to be able to provide aggregate (rock) material that supports national development while helping Indonesia achieve its emissions goals under the Paris Climate Accords.

This is why we invest in decarbonization initiatives and technologies; as an effort to increase efficiency in the use of energy and water as well as to reduce carbon footprint.

Social

PT Kaltara Batu Konstruksi (KBK)'s social commitment starts with our employees, and it extends to the communities where we operate in Indonesia and to foreign countries.

Employees are the driving force behind our achievements. KBK considers all employees as family members, and we are committed to helping them.

The health and safety of our employees is paramount in all our operational areas, especially since the COVID-19 pandemic occurred. We are also fully involved with the communities in which we operate, where we run various social and community empowerment programs that create jobs and livelihoods, as well as instill an entrepreneurial spirit and independence. Both internally and externally, locally and nationally, domestically and globally – we believe that KBK grows better alongside our community.

Governance

For us, good corporate governance is a crucial aspect of the way we do business and is critical to ensuring the continuity and sustainability of KBK. Good corporate governance means complying with applicable laws and regulations, mitigating and managing existing and potential risks, and strengthening the involvement of every stakeholder.

To achieve a sustainable business, we must have a strong business portfolio. As a corporate citizen, we recognize that we do not work alone, and that it is important to work together with other stakeholders to produce a positive impact on society.

On the other hand, the implementation of good corporate governance also means that PT Kaltara Batu Konstruksi operates in a transparent, accountable, responsible, independent, and fair manner.

KBK CSR Project

Public Roadside Mowing

On Monday, October 11, 2021, the roadside mowing work was carried out on Ahmad Yani provincial road, 100 meters north and 200 meters south from PT Kaltara Batu Konstruksi.

The mowing work was done as a form of corporate social responsibility (CSR) program of PT Kaltara Batu Konstruksi for the local community around the IUP to reduce incidents or potential accidents due to blind spots or limited visibility of the road user.

During this project, as many as six local workers were fully employed under the supervision of the KBK development team in Malinau.

**Water Well Drilling Project at
Al-Khiraat Islamic Boarding School
for Boys**

On Tuesday, November 16, 2021, we conducted the water well drilling project as well as the construction of supporting facilities such as profile tank, booster pump, suction pump, plumbing system, and electrical work for Al Khiraat Islamic Boarding School for Boys. This program was done as a form of corporate social responsibility (CSR) of PT Kaltara Batu Konstruksi for the Islamic boarding school students who in the past have had difficulty getting clean water for their daily needs.

During this project, as many as 10 local workers were fully employed under the supervision of the KBK development team in Malinau.

**Traffic Safety Pole, Traffic Mirror,
Solar Cell Lighting, and
Warning Sign Installation Project**

On Tuesday, November 16, 2021, we completed the installation of 36 traffic safety poles, two units of mining area warning sign, solar cell lightings, and one unit of traffic mirror on Ahmad Yani provincial road around the KBK mine site.

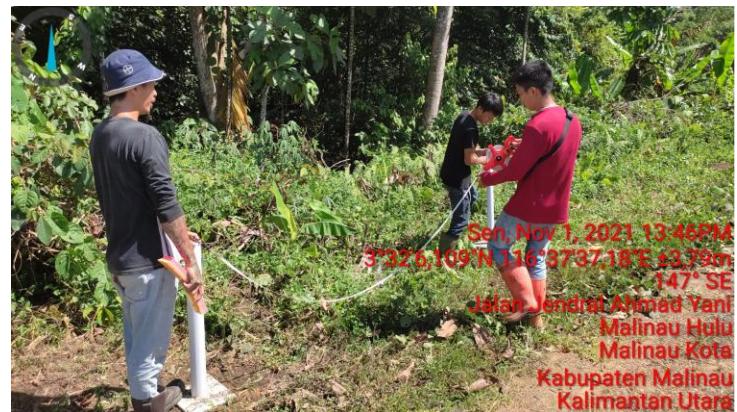

This program was done as a form of corporate social responsibility (CSR) of PT Kaltara Batu Konstruksi for the community around the IUP to reduce incidents or potential accidents for road users due to lack of road safety facilities.

During this project, as many as eight local workers were fully employed under the supervision of the KBK development team in Malinau.

KBK CSR

Future Plan

2022 CSR Plan

KBK CSR 2022 Itemized Plan:

- Build another 3 water wells in Christian school or church areas.
- Renovation-construction works at Al Khairaat Islamic boarding school for boys.
- Renovation-construction works at Al Khairaat Islamic boarding school for girls.
- Plant about 1,000 trees around KBK mine site.
- Assist local farmers with better farming methods and practices.
- Improve road safety through further maintenance and installation of signage and solar lights.
- Donate and contribute to houses of worship (mosque and church).
- Employee and local people development.
- Hold educational training classes on resources, sustainability, and environment.
- Build site clinic to support mining operations and local residents surrounding the KBK mine site.
- Conduct mosquito fogging and monitoring to prevent dengue fever and malaria in surrounding areas.
